## SUMMARY

Full-stack certified JavaScript developer with over one year of experience building websites and web applications. Driven and highly self-motivated to craft the best product possible. Great communication skills, able to collaborate with teams to produce amazing results. Fast and eager learner, one has to be to keep up with the fast-paced world of technology.

## PROJECTS

- **Official HaxeFlixel Demos / May 2014**  
<http://haxeflixel.com/demos/BSPMapGen/>  
Implemented a BSP Tree Map Generation application in Haxe. Randomly generates tile-based RPG game maps. Accepted into the official demos for popular game engine HaxeFlixel.
- **Recipe Box / March 2016**  
<https://codepen.io/hadaclay/full/EZzMaM/>  
React project for freeCodeCamp. UI and state managed by React, uses Web Storage API for persistent recipe storage.
- **SwapBooks / July 2017**  
<https://swapbooks.herokuapp.com/>  
Full-stack project for freeCodeCamp where users around the world can form book clubs. Users can create book listings and make trades with one another. Uses Express and Mongoose for back-end, and Pug for front-end templating.
- **Minimal HN / August 2017**  
<https://github.com/hadaclay/MinimalHN>  
Hacker News client written in React Native.
- More projects available on my [GitHub](#) profile or [website](#).

## EDUCATION

- **freeCodeCamp / 2016 - 2017**  
**Full-Stack JavaScript Development Certificate**  
Earned Front End, Data Visualization, and Back End Development certificates. Collaborated with other campers to assist in their web development progress.
- **Midlothian High School / 2010 - 2014**  
Graduated with Distinguished Level of Achievement.
